Summary

Flutter Developer with **4 years of experience** in building high-quality, cross-platform mobile applications using **Flutter** and **Dart**. Skilled in creating fast, scalable, and visually appealing solutions aligned with user needs and business goals. Strong in problem-solving, clean architecture, and delivering projects efficiently in **agile environments**.

Experience

Dotsquares Technologies India Pvt Ltd, Mobile Developer

10/2023 – Present

- Developed and deployed cross-platform mobile apps using **Flutter SDK**, **Dart**, and **Firebase** for Android & iOS.
- Integrated **REST APIs**, **Firebase Authentication**, and **Cloud Firestore** to enhance app functionality and scalability.
- Worked on apps across multiple domains — **Fitness, Events, Dating, Beauty, Logistics** — contributing to **7+ successful product launches**.
- Improved UI responsiveness with **custom widgets** and **BLoC** state management.
- Collaborated using **Git**, **Jira**, and **Agile** methodologies to deliver high-quality releases on schedule.

Rayz Infotech, Mobile Developer

11/2021 – 2023

- Built and maintained Flutter-based mobile applications with clean, modular, and reusable code.
- Configured **REST APIs** and managed state using **GetX** and **Provider** for optimized performance.
- Utilized **Firebase Firestore**, **Cloud Messaging**, and **Crashlytics** for backend and analytics integration.
- Ensured code quality and consistency using **Git** and **CI/CD pipelines** for collaborative development.

Technical Skills

Languages & Frameworks: Dart, Flutter SDK

Architecture & State Management: BLoC, GetX, MVC, MVVM

Backend & Databases: Firebase (Firestore, Authentication, Cloud Functions), REST APIs, SQLite

Tools & Platforms: Android Studio, Xcode, VS Code, Git, GitHub, Jira, Trello

Other Skills: Push Notifications, Google Maps API, Payment Gateway Integration, Store Deployment, Responsive UI Design

Education

Bachelor of Technology in Computer Science,

2016 – 2020

Arya Institute of Engineering & Technology (81%)

Senior Secondary, Raj Shree Senior Secondary School (RBSE) (67%)

2016

Secondary, Raj Shree Senior Secondary School (RBSE) (65%)

2014

Projects

Qxottic (Dating App)

- Designed a cross-platform dating app with real-time chat, user matching, and push notifications.
- Integrated **Firebase Authentication**, **Firestore**, and **Cloud Storage** for secure scalability.
- **Tech:** Flutter, Dart, Firebase, REST APIs
- **Tech:** Flutter, Dart, Firebase, REST APIs
- **Live on:** Android [🔗](#) | iOS [🔗](#)

Event Memories

- Built an event-based photo-sharing app allowing users to create events, generate QR codes, and upload photos in real time.
- Optimized **Firebase Storage** and gallery UI for better performance during large events.
- **Tech:** Flutter, Firebase, REST APIs
- **Live on:** Android [🔗](#) | iOS [🔗](#)

VIP Club RJ

- Delivered a private networking app for **Vivo Incredible Partners** to communicate with Channel Partners and VIP Service Teams.
- Implemented real-time messaging, data privacy, and role-based access.
- **Tech:** Flutter, Firebase, REST APIs
- **Live on:** Android [🔗](#) | iOS [🔗](#)

Netwoxx: Services on Demand

- Created a service marketplace app combining social networking features for users and service providers.
- Added profiles, reviews, job posting, and real-time chat for better engagement.
- **Tech:** Flutter, Firebase, REST APIs
- **Live on:** Android [🔗](#) | iOS [🔗](#)

Build With B

- Programmed a health and wellness app with meal planning, workout tracking, and progress analytics.
- Enabled secure user data storage and custom chart visualizations.
- **Tech:** Flutter, Firebase, REST APIs
- **Live on:** Android [🔗](#) | iOS [🔗](#)

At Home Doc

- Developed a home healthcare app enabling users to book doctor visits, upload reports, and track medical history.
- Integrated real-time location search, appointment scheduling, and consultation tracking.
- **Tech:** Flutter, Firebase, REST APIs
- **Live on:** Android [🔗](#) | iOS [🔗](#)

Fever FM Leeds UK

- Created a radio streaming app broadcasting in **English, Urdu, Punjabi, and Mirpuri**, expanding UK audience reach.
- Enhanced streaming performance and added multi-language support.
- **Tech:** Flutter, REST APIs
- **Live on:** Android [🔗](#) | iOS [🔗](#)

Intui Research

- Developed a mobile health research platform for collecting participant data and delivering interventions.
- Implemented secure surveys, data encryption, and real-time analytics.
- **Tech:** Flutter, Firebase
- **Live on:** Android [🔗](#) | iOS [🔗](#)

SnapNFix

- Built a vehicle service booking app with license plate scanning, chat with providers, and real-time tracking.
- Implemented service cost management, ratings, and on-site service options.
- **Tech:** Flutter, Firebase, REST APIs
- **Live on:** Under Development

Homee

- Created a property rental app connecting tenants and owners with location-based search and premium filters.
- Added subscription-based access, profile boosting, and real-time chat.
- **Tech:** Flutter, Firebase, REST APIs
- **Live on:** Under Development

Beauty Lux Massage App

- Built a beauty and wellness app allowing users to book salon services and purchase products.
- Integrated real-time booking, payments, and reviews similar to **UrbanClap**.
- **Tech:** Flutter, Firebase, REST APIs
- **Live on:** Under Development
